TECHNICAL DATA SHEET

SALTBUSTER® SUPER CONCENTRATE was designed to take advantage of the SALT-X technology by combining a general purpose detergent with SALT-X. The result is a general purpose cleaner that not only removes mild to medium soils, grease, oil and hydrocarbons but also removes even the harshest of salt buildup! Fresh water (which contains chlorine) and ordinary soaps (which for the most part contain salt as a building agent) will not remove stubborn salt film from surfaces. This film is the first stage of corrosion! SALTBUSTER® works quickly to deactivate, dissolve and remove this film, thus extending the usable life of any surface exposed to salt! A unique corrosion inhibitor in SALTBUSTER® actually leaves a dry non-oily coating to temporarily protect against further salt exposure. Laboratory tests have shown SALT-X (which would include SALTBUSTER®) to be NON-TOXIC & ENVIRONMENTALLY SAFE!! Repeated use of SALT-X (which is a major part of SALTBUSTER®) in the field by retail, industrial and military customers has shown that when used regularly as part of a "Preventive Maintenance" program, SALT-X removes even the harshest buildup of salt and salt film from all types of surfaces, without harming paints, oils, greases, fabrics, rubber items, plastics, etc. and can add years to the useful life of equipment. If no cleaning is desired and you simply want to remove salt, we recommend you use SALT-X.

SALTBUSTER® can be used on all wheeled/tracked vehicles, ground support/shipboard equipment, clothing, etc., (do not use on aircraft), anywhere salt is a problem! SALTBUSTER® can also be used to remove salt used on roads during icy weather.

DIRECTIONS FOR USE:

Mix one cup (8 ounces) SALTBUSTER® per gallon of water. Wet surface liberally, scrub if necessary and rinse with fresh water. SALTBUSTER® can be applied by hand, pressure washer or use the INNO-CHEM AUTO-MIX UNIT. For maximum results, use SALTBUSTER® each time equipment is exposed to salt and salt water, or on a regular basis for ship or ground support equipment.

CAUTION: KEEP OUT OF REACH OF CHILDREN! Product may cause eye irritation. In case of contact with skin, rinse off, in case of contact with eyes, flush eyes with water for at least 15 minutes. If irritation persists, get medical attention. Do not use more than 16 ounces SALTBUSTER® per gallon of water!

SALTBUSTER® SAFELY & EFFECTIVELY removes salt and salt water from virtually any surface which preserves and extends the service life of your equipment.

SALTBUSTER® was conceived and brought to market in 1987 by John Helms, a former U.S. Marine and avid saltwater fisherman, who is very familiar with the effects of salt on equipment.
