

THE ULTIMATE METAL PROTECTOR!

**Miraculously removes salt and salt water from any surface and leaves a protective coating that preserves and extends surface life!
Salt-X Fights: Rust, Corrosion & Salt Water!**

*Super Concentrated
Salt & Salt Water
Counteractant*

The Most Effective Metal Protector for Hundreds of Applications!

- Boats
- Boat Motors
- Boat Sails
- Railings
- Boat Trailers
- Rod & Reels
- Cars
- Trucks
- Buses
- Vans
- Motor homes
- Mobile Homes
- Travel Trailers
- Bicycles
- Motorcycles
- Food Processing Plants
- Service Areas
- Equipment
- Storm Windows
- Patio Furniture
- Utility Buildings
- Air Conditioners
- Tents & Camping Gear
- Diving Equipment
- Ocean Shipping Containers
- Shipboard Equipment
- Construction Equipment
- Salt Spreaders
- Snow Plows
- Train Locomotives
- Boxcars
- Shopping Carts
- Etc.

SALT-X IS LAB TESTED!

B.A.W. Laboratories, Inc.

1215 Central Avenue

Charlotte, NC 28204

March 31, 1987

Reference No: 87C11071-1562

Date Received: March 6, 1987

Client:

Innovative Chemicals, Inc.

Sample Identification: Salt-X

Analysis: Laboratory analysis resulted in demonstrating the following:

- 1.) Salt-X helps **reduce the corrosiveness of salts** and removes salt deposits by reducing the salt content as measured as chloride.
- 2.) Salt-X does leave a coating that **helps inhibit corrosion.**

3.) Salt-X will help **extend the life** of metal surfaces exposed to salt and salt water when used as directed by leaving a coating as well as reducing the salt content.

4.) Salt-X itself **will not harm any metal surfaces** when used as directed as shown in accordance with U.S. Test Method MIL-A-8243C.

E.P.A. Certificate No. 02006

S.C. Certificate No. 99004

Michael R. Banker and D. Anner Wilson

If Salt-X comes in contact with Magnesium or Magnesium alloy, rinse with fresh water.

DIRECTIONS FOR USE:

Salt-X is easy to use. Just mix 2 ounces per gallon of water and apply to surface and let air dry. Salt-X can be mixed in a garden sprayer, flush tank, bucket or spray bottle. Or, you can use our Auto-Mix unit for rinsing down large areas or flushing out boat motors. Simply attach the Auto-Mix unit to a faucet, drop the siphon hose in a solution of Salt-X, attach a garden hose and connect to a spray nozzle or motor flush unit nozzle.

(Complete instructions come with the unit).

FOR THE SPORTSMAN

Use Salt-X to flush out boat motors, rinse boats, boat/travel trailers, boat sails, railings, tents and camping gear, diving equipment (air tanks, remove white film from fins, etc.) rods, reels and fishing tackle. (**Note!** Mix Salt-X in a bucket and drop hooks, lures, etc. into solution and let set for a few minutes. Remove and let air dry to extend the life of these items.)

CAR/TRUCK WASHING

Use Salt-X to rinse off harmful deposits of salt from salt water, salt water spray and road salt used during snowy or icy weather. (**Note!** Runoff water used for this purpose is actually less polluting than just plain water because Salt-X has deactivated the salt deposits).

INDUSTRIAL USES

Use Salt-X to rinse salt deposits from tractors, trailers, ocean containers, shipboard equipment, metal buildings, snow plows, salt spreaders, all types of construction equipment, trains, buses, locomotives, boxcars, etc.

*Made with
Pride in
the USA*

AROUND THE HOUSE

Use Salt-X to rinse houses (to include mobile/motor homes), storm windows, patio furniture, utility buildings, air conditioners, cars, trucks, etc. Salt-X will even remove white film from shoes exposed to icy or snowy slush.

SUPER CONCENTRATED SALT & SALT WATER COUNTERACTANT

Safe for use on all metals, exclusive rust inhibitor, biodegradable, mixes with water, simple to use... just spray Salt-X on!

INNOVATIVE - New product designed to protect virtually all metal surfaces from the destructive effects of chloride salts and prevent the salt damage found in coastal areas. Salt-X is a unique combination of counteractive ingredients that attacks, dissolves, deactivates and removes salt and salt water deposits from any surface, instantaneously.

SAFE TO USE - Biodegradable and safe to use on all metal surfaces, Salt-X significantly reduces the corrosive, harmful effects of salt and salt water deposits, thus extending the life of metal surfaces exposed to this destructive element. Salt-X is USDA authorized!

EXCLUSIVE CORROSION INHIBITOR - Salt-X contains an exclusive corrosion inhibitor, "ANTICHLOR", which is a primary ingredient of the protective coating that helps preserve the metal surface. Although Salt-X will not correct past damage, it will definitely help to reduce further damage when used as directed.

UNLIMITED USES - There's nothing on the market to compare with Salt-X for preserving the metal on your boat, boat motor, car, truck, motor home, trailer, even your fishing reels, bikes, air conditioners, metal utility buildings, etc. See expanded list on back cover.

A MONEY-MAKING INVESTMENT - By using Salt-X regularly as a "Preventative Maintenance" item on all of your equipment, you will retain the "like new" look and value for trade in or outright sale. The ultimate savings will be quite significant, like cash in the bank.

ECONOMICAL - Super concentrated Salt-X is extremely economical. Just two ounces per gallon of water is sufficient for most types of applications. See directions for use on previous page.
